

FACULTY BIOGRAPHY

Rachel W. Conklin, MMS, PA-C

Physician Assistant

The Gastroenterology Center at Valley View Hospital
Glenwood Springs, CO

Rachel W. Conklin, MMS, PA-C, dedicates her clinical practice fully to caring for patients with inflammatory bowel disease (IBD) and celiac disease at the Gastroenterology Center at Valley View Hospital in Glenwood Springs, CO. Her prior clinical experience includes cancer survivorship and radiation oncology, tobacco treatment, and primary care. A graduate of Vanderbilt University (BE in biomedical engineering) in Nashville, TN and Wake Forest School of Medicine (MMS, physician assistant studies and translational science) in Winston-Salem, NC, she also completed the Crohn's & Colitis Foundation's IBD APP Fellowship at the University of Chicago in Chicago, IL, sits on the Foundation's RN and APP National Scientific Advisory Committee, and collaborates with Dr. Benjamin Click and the multidisciplinary IBD team at the University of Colorado through the RADIUS program. Her practice principles center on evidence-based care delivered through collaborative, patient-empowering relationships. Rachel has been a board-certified physician assistant for 13 years and has practiced in adult gastroenterology for 6 years.

FACULTY BIOGRAPHY

Parambir S. Dulai, MD

Associate Professor, Medicine

Director, GI Clinical Trials

Director, Precision Medicine

Division of Gastroenterology and Hepatology

*Feinberg School of Medicine Northwestern University
Chicago, IL*

Parambir S. Dulai, MD, is an associate professor of medicine, the director of GI clinical trials, and the director of precision medicine, in the division of Gastroenterology and Hepatology at Northwestern University in Chicago, IL. He completed his medical residency training at Dartmouth-Hitchcock Medical Center in Lebanon, NH, where his research was focused on comparative safety, patient preferences, and shared decision making. Dr Dulai then completed an NIH-sponsored research fellowship and an advanced inflammatory bowel disease (IBD) fellowship at the University of California (San Diego) Medical Center, where he focused on biomarkers, real-world data generation, comparative safety and effectiveness of therapies in IBD, and personalized medicine. He completed an IBD clinical trials fellowship at Robarts Clinical Trials, now Alimentiv Inc, and is currently the principle investigator for several industry and federally funded clinical trials. Dr Dulai is board certified in gastroenterology.
