## **Camille Nelson Kotton, MD, FIDSA, FAST**

*Clinical Director*, Transplant and Immunocompromised Host Infectious Diseases  
Infectious Diseases Division  
Massachusetts General Hospital  
*Associate Professor*, Medicine  
Harvard Medical School  
Boston, MA

**Camille Nelson Kotton, MD, FIDSA, FAST**, is the clinical director of the Transplant and Immunocompromised Host Infectious Diseases Program in the Infectious Diseases Division at Massachusetts General Hospital, and an associate professor of medicine at Harvard Medical School in Boston, MA. Dr Kotton received her medical degree from the University of Chicago, The Pritzker School of Medicine in Chicago, IL. She then completed her residency in internal medicine at the University of Pennsylvania Health System in Philadelphia, PA and her fellowship in infectious disease at Massachusetts General Hospital/Brigham and Women's Hospital/Harvard Medical School. Dr Kotton is board certified in infectious disease.

Dr Kotton's clinical interests include cytomegalovirus, donor-derived infections, zoonoses, and travel and tropical medicine in the transplant setting. She is a member of the CDC Advisory Committee on Immunization Practices (ACIP) and is involved in national decisions regarding COVID-19 and other vaccines.

Dr Kotton has served as the chair of the Infectious Disease Community of Practice of the American Society of Transplantation. She has also served as the president of the Transplant Infectious Disease Section of The Transplantation Society and highlights of her time as president include the development of 3 versions of the international guidelines on CMV management after solid organ transplant, published in *Transplantation*. To add to her many accomplishments, she is the first transplant infectious disease specialist to be a councilor of The Transplantation Society.

## **Marcus R. Pereira, MD, MPH, FAST**

*Associate Professor, Medicine*  
*Medical Director, Transplant Infectious Diseases Program*  
Columbia University Irving Medical Center  
NewYork-Presbyterian Hospital  
New York, NY

**Marcus R. Pereira, MD, MPH, FAST**, is an associate professor of medicine at the Columbia University College of Physicians and Surgeons. Dr Pereira is also the medical director of the Transplant Infectious Diseases Program at Columbia, where he oversees the care and the development of infection prophylaxis and treatment protocols for immunocompromised patients. He received his medical degree from the University of Florida in Gainesville, FL. He then completed both his residency and fellowship at NewYork-Presbyterian Hospital/Columbia University Medical Center. Dr Pereira is board certified in internal medicine and infectious disease.

Dr Pereira's research areas of interest include multi-drug resistant infections, resistant CMV infections, and more recently COVID-19 outcomes in solid organ transplant recipients. He is an active member of AST and IDCOP, including co-authorship in the AST IDCOP Guidelines, 4th edition, and currently serving as co-chair of the IDCOP MDRO working group. He is currently a member of the AST COVID-19 Task Force and an associate editor for the *American Journal of Transplantation*.

## **Raymund R. Razonable, MD, FIDSA, FAST**

*Professor, Medicine*

*Program Director, Infectious Diseases Fellowship Program*

*Vice Chair, Division of Infectious Diseases*

*Mayo Clinic*

*Rochester, MN*

**Raymund R. Razonable, MD, FIDSA, FAST**, is a professor of medicine and Distinguished Clinician at the Mayo Clinic College of Medicine and Science in Rochester, MN. He serves as the Vice Chair of the Division of Public Health, Infectious Diseases and Occupational Medicine, and as the program director of the Infectious Diseases Fellowship Training Programs at the Mayo Clinic. Dr Razonable received his medical degree from Far Eastern University Nicanor Reyes Medical Foundation in Manila, Philippines. He then completed his residency in internal medicine at Beth Israel Medical Center (Albert Einstein College of Medicine program, New York) and his fellowship in infectious disease at Mayo Clinic College of Medicine and Science (Rochester). Dr Razonable is board certified in infectious diseases.

Dr Razonable's clinical, educational, and research interests include infections related to organ transplantation, with specific focus on cytomegalovirus (CMV) infections. He has authored over 280 peer-reviewed original and review articles, more than 30 book chapters, and over 200 abstracts on these topics. He is a sought-after speaker on CMV and virus infections in transplantation and is a member of the Board of Directors of the American Society of Transplantation.
